FEBRUARY-MAY, 1917

PHILADELPHIA
THE WISTAR INSTITUTE OF ANATOMY AND BIOLOGY

COMPOSED AND PRINTED AT THE
WAVERLY PRESS
BY THE WILLIAMS & WILKINS COMPANY
BALTIMORE, MD., U. S. A.

CONTENTS

No. 1 FEBRUARY

FRANK E. BLAISDELL, SR. The anatomy of the sacro-uterine ligaments. Twenty-two figures	1
ARTHUR WILLIAM MEYER. Spolia anatomica, addenda II. Twenty-two figures.....	43
C. M. VANDERBURGH. The hypophysis of the guinea pig. Seven figures.....	95
H. A. CLATTENBURG. The thoracic duct of the adult guinea pig. Thirty-four figures..	113
ELBERT CLARK AND RUSKIN H. LHAMON. Observations on the sweat glands of tropical and northern races. Two figures.....	139
GOLDER L. McWHORTER. The relations of the superficial and deep lobes of the parotid gland to the ducts and to the facial nerve. Two figures.....	149
SARA B. CONROW. Further observations on taillessness in the rat. Three figures.....	155
MONTROSE T. BURROWS. The significance of the lunula of the nail. Two figures.....	161
B. TALBOT STRONGMAN. A preliminary experimental study on the relation between mitochondria and discharge of nervous activity.....	167
T. STANLEY O'MALLEY. An anomalous Vena pulmonalis within the lung. Two figures	173
EBEN CAREY. The anatomy of a double pig, Syncephalus thoracopagus, with especial consideration of the genetic significance of the circulatory apparatus. Ten figures.	177
ROBERT T. HANCE. A device to increase the efficiency and ease of manipulation of the fine adjustment of the microscope. One figure.....	193

No. 2 MARCH

OTTO C. GLASER. On the mechanism of morphological differentiation in the nervous system. II. The relation between compression and the development of a series of vesicles. Eight text figures and three plates	195
JOHN SUNDWALL. The choroid plexus with special reference to interstitial granular cells. Ten figures	221
F. E. CHIDESTER. Intestinal hernia in two species of frogs. Three figures.....	255
J. M. STOTSSENBURG. Observations on the influence of isolated ovaries on the body growth of the albino rat (<i>Mus norvegicus albinus</i>). Two charts	259
FRANKLIN P. REAGAN, EDWARD E. MACMORLAND, and STUART MUDD. Anterior haematopoesis in chemically treated teleost embryos under continual observation. Eleven figures	265
GEORGE W. CORNER and A. E. AMSBAUGH. Oestrus and ovulation in swine	287
ARTHUR WILLIAM MEYER. Intra-uterine absorption of ova. Seven figures	293
J. B. JOHNSTON and EDNA G. DYAR. Methods of mounting sections in gelatin	309
LOUIS H. KORNDER. The value of absolute alcohol for removing adherent paraffin sections from paper or pasteboard trays.....	312
EDMOND SOUCHON. Preservation of anatomic dissections with permanent color of muscles, vessels and organs. A supplementary note, describing another method, the curing method	313
W. D. WALLIS. The development of the human chin.....	315
RICHARD W. HARVEY. Notes on two cases of anomalous right subclavian artery	329

No. 3 APRIL

GEORGE K. HASHIBA. The lymphatics system of the guinea-pig. Nineteen figures.....	331
ADOLF H. SCHULTZ. Ein Paariger Knochen am Unterrand der Squama occipitalis. Mit 2 figuren im text.....	357
C. E. McCLUNG. Cooperative technique.....	363
SARA B. CONROW. A six-legged rat. Five figures.....	365
ROBERT T. HANCE. The fixation of mammalian chromosomes. Two text figures and three plates.....	371
F. E. CHIDESTER. Hermaphroditism in <i>Fundulus heteroclitus</i> . Three figures.....	389
C. V. MORRILL. Reference model of the thoracic viscera. Three figures.....	397
C. C. MACKLIN. Notes on the preparation of bones from madder-fed animals.....	403
CLARENCE L. TURNER. A culture medium for <i>Euglena</i> with notes on the behavior of <i>Euglena</i>	407

No. 4 MAY

G. B. WISLOCKI. The action of vital dyes in teleosts.....	415
HAL DOWNEY. Reactions of blood and tissue cells to acid colloidal dyes under experi- mental condition. Four figures (one plate).....	429
JAMES H. WARREN and JONATHAN FORMAN. Observations on the occurrence of eosino- philic leucocytes and the granule cells of Paneth in the vermiform appendix of man.	455
LEWIS H. WEED. An anatomical consideration of the cerebro-spinal fluid.....	461
